 This month's board meetings will take place on:

**June 14 & 28**

## From the President's Desk

by Cicero Town President Larry Dominick

**Dear Cicero residents,**

Welcome back to summer in Cicero! It's been a long winter, or at least spring took its happy time to show up for a week, but we are finally ready to celebrate the season with outdoor fun.

We started earlier in May with Cinco de Mayo, the largest Mexican-American celebration in the region. I am sure many of you attended and were thrilled to see us bring back such a fantastic celebration.

Next up will be our familiar Fourth of July celebration, with a slight twist. Usually, I'd tell you about American Fest either at the end of June or the beginning of July. But last year, as we started going back to outdoor festivals, we hosted Cicero Fest, a new event focused on getting back together and celebrating all that makes living in this town great.

After the great turnout, I am proud to say that we will bring back Cicero Fest as an Independence Day celebration. We continue to honor and celebrate our

American Independence by commemorating the great liberties we have that enable us to be a community together. Our community is symbolic of the American Dream, where people from all over the world moved here to build a better and brighter future. We continue to thrive as one town under a flag representing hope and opportunity, no matter how our story started. I hope you will all come out starting June 30 to celebrate America in this new and familiar way!

+++++

Another summer tradition coming up is Summer in the Park. This series of outdoor fun kicks off this month with many activities to entertain kids and families throughout the summer months.

As we've seen throughout this nation, our kids have suffered these past few years and what they need more than anything else is a chance to hang out with friends in safe spaces. Summer in the Park provides those places for kids to blow off steam, stay active and connected

throughout the season, and be ready to return to school when classes resume this fall.

Summer in the Park is certain to be a great festival and I look forward to seeing so many of our kids there!

Sincerely,

A handwritten signature in black ink that reads "Larry Dominick".

Larry Dominick  
Cicero Town President

P.S. As always, please feel free to contact me with concerns, questions, comments or suggestions at [larry@thetownofcicero.com](mailto:larry@thetownofcicero.com). Thank you.

## Cinco De Mayo Returns with Great Fanfare

A day of bad weather did not stop Cinco de Mayo from returning with a grand celebration at the Cicero Fairgrounds at the beginning of May. The festival celebrating Mexican-American culture saw thousands of families and friends congregating at 34th & Laramie for rides, food, and plenty of live music.

"Although the first couple of days were marred by rain, Cinco de Mayo turned into a wonderful festival by the end," said Town President Larry Dominick.

Cicero's Cinco de Mayo celebration has long been one of the largest festivals in the region. Record crowds show up to enjoy the commemoration of Mexico's 1862 victory over the French in the Battle of Puebla, a point of pride for Mexicans that transformed into the celebration of Mexican-American culture today.

"It's a phenomenal turnout this year, and I'm thrilled to see so many people return after a long absence. Cicero continues to be the place to celebrate Cinco de Mayo in the region," Dominick said.

A vendor prepares the grill at the Cinco de Mayo festival in early May.

Kids ride one of the festival attractions at the Cinco de Mayo festival in Cicero at the beginning of May.

The main stage had great entertainment all weekend long.

Even Minnie Mouse was at the festival to greet kids.

Lots of carnival activities for all ages to enjoy.

Frank and Josie Kraut, thank you for your help!

# Cicero Volunteers Sweep Through Town Over Cleanup Week

More than 400 volunteers gathered at 34th and Laramie on May 14 as a part of a town-wide drive to collect litter as a part of Cicero Annual Cleanup Week.

The annual cleanup effort brings students and adults together, led by Town Assessor Emilio "Emo" Cundari. Town officials, including President Dominick, Supervisor Joe Virruso, Clerk Maria Punzo-Arias, Collector Fran Reitz, and trustees John Cava, Bob Porod, Victor Garcia and Blanca Vargas, supported the venture. Cicero Chaplain Ismael Vargas helped launch the drive.

"The Cleanup Week drive in the spring and early summer is a reminder to residents to be vigilant about keeping Cicero clean," Cundari said.

"When they see the volunteers picking up litter in their neighborhoods, people come out and help and it reminds us all that cleaning up litter is not just a town responsibility but a matter of community pride. It has a powerful impact to discourage gangs and violence, attract more businesses that result in more jobs, and brings people out of their homes for a good project."

The volunteers spread throughout the town and, at the conclusion, enjoyed a luncheon hosted by the town and donations by several local businesses.

Many thanks goes to the sponsors of Cleanup Week:

## Cicero Officials Cut Ribbon on Improved Safety Town Park

Town President Larry Dominick, officials of the Town of Cicero and many donors cut the ribbon on the newly improved Safety Town Park on May 11, where first-grade school children learn about safety.

Safety Town, located at 5444 W. 34th Street, provides classrooms and an outdoor park resembling a small community where children learn safety techniques.

Each day, a class of young children from Cicero District 99 schools spends part of their day learning to be vigilant and then receive certificates acknowledging the training.

Diana Dominick, Director of the Cicero Senior Center, directed the renovation of Safety Town. She also led the fundraising from two dozen donors.

"I truly give our donors my heartfelt thanks. Your support is invaluable for our mission," Diana Dominick said. "Your support assists in our ability to fulfill our educational mission and provide such meaningful opportunities to our young children."

Children learn the importance of dialing 9-1-1 to contact police, understand the meaning of street signs, how and when to cross the streets safely, train rules and more.

"I want to thank my wife Diana, coordinator Fred Garza and everyone involved in the progress of the Safety Program for all the hard work and all of the officials and the donors for supporting this improvement," President Dominick said. "We want to give our children better choices, so they are not vulnerable to the influences of street gangs and crime."

Afterward, the officials, including Supervisor Joe Virruso, Maria Punzo-Arias, Assessor Emilio "Emo" Cundari, Collector Fran Reitz, and trustees Victor Garcia, Bob Porod, John Cava and Blanca Vargas, presented certificates to each of the children.

President Dominick said his next project is to create at 18th and Laramie "Handicapped Accessible Park."

Donors who helped fund the renovation include:

- Gold Rush
- M & R Transmissions Inc.
- El Porvenir Inc.
- El Rancho Western Wear
- Con Huevos
- Golden Corral
- Abel De Valente Tailoring
- United Grill Restaurant Inc
- Azul & Rosa Inc

Town President Larry Dominick cuts the ribbon on the renovated Safety Town with leaders including, trustees Bob Porod, Victor Garcia and Blanca Vargas, Assessor Emilio "Emo" Cundari, Clerk Maria Punzo-Arias, Collector Fran Reitz, and Senior Center Director Diana Dominick.

Kids get ready to become the first students enjoying Safety Town's renovated features after the grand opening on May 11.

## Cicero Seniors celebrate Jeanette Fladvid's 105th Birthday

Town President Larry Dominick, officials of the Town Board, and the Senior Center visited the home this week of Jeannette Fladvid, who celebrated her 105th Birthday on May 15.

President Dominick joined Senior Center Director Diana Dominick and Cicero Collector Fran Reitz and presented Ms. Fladvid with flowers and gifts.

Fladvid was born in Mosinee, Wisconsin, on May 15, 1917. Jeannette lived on a farm until her parents moved to Cicero, IL, in 1936 as the youngest of four siblings with two brothers and one sister.

Fladvid worked for Sears for seven years and later for the Bindery Form House for 29 years at 18th Street & Laramie Ave till she retired at age 68

Fladvid is a member of the Young Survivors, Cicero's Senior Club, and an active member of the Mary, Queen of Heaven Marian Council.

"We are very happy to be able to celebrate this birthday with Jeannette. She has had a remarkable life and has seen events in our town and country's history that some of us have only read about," President Dominick said.

"We all want to wish Jeannette a happy birthday and 105 more to come."

Town President Larry Dominick joins Senior Center Director Diana Dominick in celebrating Jeanette Fladvid's 105th birthday in May.

## Senior Centers hosts Mothers Day Luncheon

More than 300 seniors celebrated Mother's Day at a special Brunch hosted by the Senior Center on May 12 at the Cicero Community Center.

"Our seniors are very important to this town. They deserve our respect and support, and we especially want to say Happy Mother's Day to all of our senior women," said Town President Larry Dominick.

"I am very proud of the Senior Center's programs each week for our senior community. There is no reason for a senior to be by themselves and alone. There are so many programs like this Mother's Day brunch."

The program was organized by Senior Director Diana Dominick and her staff, providing food, entertainment, and dancing.

"We had a great turnout of seniors to celebrate Mothers Day," Diana Dominick said.

"We cherish our mothers and salute them on this important holiday."

An Important Message from Cicero Town Clerk Maria Punzo Arias

### HOW TO REGISTER

Registration for all programs is in-person only at Cicero Stadium, 1909 S. Laramie Ave. in Cicero.

Registration open Monday - Friday from 8:30 am to 7:30 pm, and Saturday from 9 am to 2:30 pm.

To register, adults must show a photo ID with current address. Under 18 need a parent/legal guardian with photo ID, plus birth certificate for first-time registrations.

Most classes paid on monthly basis. We reserve the right to cancel due to low enrollment - so register early!

**PAYMENT BY CASH, CHECK OR MONEY ORDER ONLY, PLEASE!**

For information, call 708-652-3545.

**\*ID - In District \*\*OD - Out of District**

### KUNG-FU

**Learn a Martial Art!**  
 Parkholme Building, 1820 S. 51st Ave., 2nd floor

Tuesdays & Thursdays / Saturdays  
 Beginner: 5 - 6 pm / 10 - 11 am  
 Intermediate: 6 - 7 pm / 9 - 10 am  
 Advanced: 7 - 8 pm / 8 - 9 am

**Cost: \$60 (ID\*) / \$75 (OD\*\*)**

### WADING POOLS

**1-8 years old only - no exceptions**  
**Cost is free for Cicero Residents with ID**

We will admit children until capacity is reached. (Max. 3 children per each adult)  
 Swim diaper a must for 3 and younger.

**Fee for Non-Cicero Residents:**  
**\$71st child / \$5 each additional / Max 3**  
 Parents must supervise their children and are not allowed to swim.

### FACEBOOK UPDATES

Be sure to "LIKE" our business page on Facebook Clyde Park District aka Cicero Stadium (Under Follow - Click see all (Posts)).

### UPCOMING EVENTS AT CICERO STADIUM

**TOTAL FIGHT CHALLENGE, JUNE 11, 2022**  
**TIX: TOTALFIGHTCHALLENGE.COM**

**MAJOR LEAGUE WRESTLING, JULY 16, 2022**

### SENIOR CONGREGATE MEALS - If you qualify, give us a try...

Senior adults 60 years and older are sign up for a program offered by Clyde Park District through Age Options. Catholic Charities is the Vendor. The meal is supplied by Georgis Catering. Delicious, healthy meals will be served each weekday to those that signed up to join us. Meals are low-sodium, low-sugar and include complex carbohydrates, protein, fresh fruit and vegetables. (Each of the delicious meals served has a value of \$7.00). There is a suggested donation of \$2.00 per meal. Come in, sign up and join us! \* No qualified Senior will be denied a meal due to their inability to pay the donation.

**WE ARE AN OAKLAWN PARK DISTRICT - SPECIAL RECREATION CO-OP MEMBER.**  
**PLEASE CALL Jacqueline Canty at 708-857-2200 for information regarding program options available for individuals with special needs.**

# Vehicle Sticker 2022/2023 Application Form

Cicero Town Hall  
 4949 W. Cermak Rd.  
 Cicero, IL 60804  
 708.656.3600 Ext. 261, 811, 812, 356  
 www.thetownofcicero.com

Fran Reitz  
 Town Collector

License Plate #	Year	Make/Model	Body Style	Vehicle Identification (VIN) #	Color

Registered Owner's Name: \_\_\_\_\_ Phone Number: (\_\_\_\_) \_\_\_\_\_

Address: \_\_\_\_\_ Apt. # \_\_\_\_\_

ALL vehicles stored/parked in Cicero must display a current Cicero Vehicle Sticker. To apply, submit a completed application form and following  
 -Current Illinois License Plate Registration Card and valid/current Car Insurance Card/Policy.  
 -Vehicle Sticker Fee: Cash, Checks (proper ID), Money Order (payable to Town of Cicero), and Credit or Debit Cards are accepted.  
 \*To transfer a sticker: Old vehicle sticker and receipt must be returned to the Collector's Office to apply for transfer, fee \$10.

I hereby affirm that I have read the regulations and instructions on this form and that the information provided on this application form is true and correct.

Signature X \_\_\_\_\_ Date: \_\_\_\_/\_\_\_\_/\_\_\_\_

## New Cicero Sticker must be displayed on inside lower passenger side of windshield by July 1, 2022

### Vehicle Sticker Instructions:

- All vehicles in town must have a current Cicero vehicle sticker affixed.
- Vehicle owners have 30 days from the date of purchase on a new vehicle or the vehicle registration, or from the date on which the owner changed address, or moved into Cicero to purchase a vehicle sticker without incurring a late charge of \$50.
- Transfer stickers are \$10 when the original sticker and original receipt are submitted to the Collector's Office within 30 days from the date of purchase on a new vehicle. (otherwise, the full fee applies)
- Stickers purchased late are subject to a \$50 late fee.
- Cash, Checks (proper ID), Money Order (payable to Town of Cicero), and Credit or Debit Cards (Visa, MasterCard, & Discover) are accepted with surcharge 1.75%, min \$1.00
- A \$30 NSF fee is charged for any returned check.
- All Cicero parking fines must be paid prior to purchasing sticker.
- The Town of Cicero is not responsible for lost or stolen sticker(s) under any circumstances.
- Affix the new sticker immediately on inside lower passenger side windshield after receiving sticker. Remove **ALL** expired tags/stickers.

### If purchasing sticker(s) by mail:

- Complete and sign this application form and mail with the following:
- Copy of current Illinois Plate Registration Card
  - Copy of current Insurance Card
  - Fee (check or money order payable to Town of Cicero) See Vehicle Sticker Fees

**Mail this form/fee to:**  
 Town of Cicero Attn: Vehicle Tags/Collector's Office  
 4949 W Cermak Rd., Cicero, IL 60804

### Vehicle Sticker Fees RATES

<b>Passenger Cars</b> (up to 4 vehicles per household) . . . . .	\$50 per vehicle
5th Vehicle . . . . .	\$155
6 or more vehicles - Fee increases in \$50 increments per vehicle	
<b>Motorcycles</b> . . . . .	\$50
<b>Antique Plates</b> . . . . .	\$20
<b>Dealership Hang Tag</b> . . . . .	\$50
<b>Seniors (age 62 or older), Military, or Handicapped:                      ID with current address</b>	
1st Sticker . . . . .	FREE
<i>(Only One FREE per single family household)</i>	
<b>Additional Sticker</b> . . . . .	\$15
<b>Transfer Sticker Fee</b> . . . . .	\$10
*Original sticker and receipt must be returned otherwise full sticker fee applies for transfer. See 3.	
<b>Trucks:</b>	
B, Vanity, Personalized, Specialty and RV (8,000 lbs.) . . . . .	\$ 90
C (8,001 lbs. to 10,000 lbs.) . . . . .	\$ 105
D through F . . . . .	\$ 115
H through L . . . . .	\$ 165
N through Z . . . . .	\$ 190

2022/2023 Cicero Vehicle Stickers are valid until June 30, 2023

Cicero Town Hall, 4949 W. Cermak Rd., Cicero, IL 60804  
 Business Hours: Monday-Thursday from 8am to 8pm / Closed Fridays & Weekends  
 Or purchase on-line at www.thetownofcicero.com

## TOWN OF CICERO Water Quality Report / Consumer Confidence Report

Public Water Supply ID#0310510  
For the Period January 1, 2021 through December 31, 2021

**Este informe contiene informacion muy importante sobre el agua que usted bebe. Traduzcalo o hable con alguien que lo entienda bien.**

This report is intended to provide you with important information about your drinking water and the efforts made by the Town of Cicero to provide safe drinking water. If you would like to learn more please contact Town Hall or visit our web site at [www.thetownofcicero.com](http://www.thetownofcicero.com). There you will find the completed Illinois EPA Source Water Assessments; including current Town water Infrastructure projects. Regularly scheduled Cicero Town Board meetings are held on the 2nd and 4th Tuesday of each month at 10:00 am. You may also want to visit the Illinois EPA website to access other information regarding Source Water; Susceptibility of Contamination Determination, and documentation and recommendations of Source Water Protection Efforts, at: <http://www.epa.state.il.us/cqi-bin/wp/swap-fact-sheets.pl>.

If you have any other questions, or need additional information, please contact Joe Virruso, Town Supervisor or Lido Manetti, Water Department Director at 708.656.3600.

**CONSUMER EDUCATION**

The Town of Cicero tests the water supply for chlorine content on a daily basis to maintain the optimum levels for the consumers' needs. On a monthly basis, bacteriological samples are taken. On a yearly basis, samples are submitted for Total Trihalomethane (TTHM) Analysis. Samples are also provided for lead and copper monitoring on a schedule established by the IEPA. All testing and reports are performed according to the requirements of IEPA.

Drinking water, including bottled water, may reasonably be expected to contain at least small amounts of some contaminants. The presence of contaminants does not necessarily indicate that water poses a health risk. More information about contaminants and potential health effects can be obtained by calling the EPA's Safe Drinking Water Hotline at (800) 426-4791.

In order to ensure that tap water is safe to drink, the EPA prescribes regulations which limit the amount of certain contaminants in water provided by public water systems. The Federal Drug Administration (FDA) regulations establish limits for contaminants in bottled water which must provide the same protection for public health.

Some people may be more vulnerable to contaminants in drinking water than the general population. Immuno-compromised persons such as persons with cancer undergoing chemotherapy, persons who have undergone organ transplants, people with HIV/AIDS or other immune system disorders, some elderly and infants can be particularly at risk from infections. These people should seek advice about drinking water from their health care providers. The EPA and the Center of Disease Control and Prevention (CDC) guidelines on appropriate means to lessen the risk of infection by Cryptosporidium and other microbial contaminants are available from the Safe Drinking Water Hotline.

**Lead:** If present, elevated levels of lead can cause serious health problems, especially for pregnant women and young children. Lead is not found in the source water. Lead in drinking water is primarily from materials and components associated with service lines and home plumbing. We cannot control the variety of materials used in plumbing components. A common source is from brass or chrome-plated brass faucets, and fixtures with lead solder, from which significant amounts of lead can enter into the water, especially from hot water use. Homes built before 1986 are more likely to have lead pipes, fixtures and solder. The Safe Drinking Water Act (SDWA) has reduced the maximum allowable lead content that is considered "lead-free" to be a weighted average of 0.25 percent calculated across the wetted surfaces of pipes, pipe fittings, plumbing fittings, and fixtures and 0.2 percent for solder and flux.

The Safe Drinking Water Act requires the EPA to determine the level of contaminants in drinking water at which no adverse health effects are likely to occur with an adequate margin of safety. These non-enforceable health goals, based solely on possible health risks, are called maximum contaminant level goals (MCLGs). The EPA has set the maximum contaminant level goal for lead in drinking water at zero because, lead is a toxic metal that can be harmful to human health even at low exposure levels. Lead is persistent, and it can bioaccumulate in the body over time.

**Measures to Reduce Lead in Drinking Water at Home:** Flush your pipes before drinking. When your water has been sitting for several hours, you can minimize the potential for lead exposure by flushing your tap for 30 seconds to 2 minutes before using water for drinking or cooking. Use only cold water for drinking, cooking, and especially for making baby formula. Hot water is likely to contain higher levels of lead. Run cold water until it becomes as cold as it can get. Note that boiling water will NOT get rid of lead contamination. Bathing and showering should be safe for you and your children, even if the water contains lead over EPA's action level. Human skin does not absorb lead in water. This information applies to most situations and to a large majority of the population, but individual circumstances may vary.

If you are concerned about lead in your water, you may wish to have your water tested. Information on lead in drinking water, testing methods, and steps you can take to minimize exposure is available from the Safe Drinking Water Hotline (800-426-4791) or at <http://www.epa.gov/safewater/lead>.

**Please share** this information with all the other people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.

**DEFINITION OF TERMS / UNITS OF MEASUREMENTS**

<p style="text-align: center;"><b>DEFINITION OF TERMS</b></p> <p><b>Maximum Contaminant Level Goal (MCLG):</b> The level of contaminant in drinking water below which there is no known or expected risk to health. MCLGs allow for a margin of safety.</p> <p><b>Maximum Contaminant Level (MCL):</b> The highest level of a contaminant that is allowed in drinking water. MCLs are set as close to the MCLGs as feasible using the best available treatment technology.</p> <p><b>Maximum Residual Disinfectant Level Goal (MRDLG):</b> The level of drinking water disinfectant below which there is no known or expected risk to health. MRDLGs do not reflect the benefits of the use of disinfectants to control microbial contaminants.</p> <p><b>Maximum Residual Disinfectant Level (MRDL):</b> The highest level of disinfectant allowed in drinking water. There is convincing evidence that addition of a disinfectant is necessary for control of microbial contaminants.</p> <p><b>Range of Detections:</b> This column represents a range of individual sample results, from lowest to highest that were collected during the CCR calendar year.</p> <p><b>Action Level (AL):</b> The concentration of a contaminant which, if exceeded, triggers treatment or other requirements which a water system must follow.</p>	<p><b>Action Level Goal (ALG):</b> The level of a contaminant in drinking water below which there is no known or expected risk to health. ALGs allow for a margin of safety.</p> <p><b>Date of Sample:</b> If a date appears in this column, the Illinois EPA requires monitoring for this contaminant less than once per year because the concentrations do not frequently change. If no date appears in the column, monitoring for this contaminant was conducted during the CCR calendar year.</p> <p><b>Treatment Technique (TT):</b> A required process intended to reduce the level of a contaminant in drinking water.</p> <p><b>ND:</b> Not detectable at testing limits. <b>N/A:</b> Not applicable</p> <p><b>Turbidity:</b> Is a measurement of the cloudiness of the water caused by suspended particles. We monitor it because it is a good indicator of water quality and the effectiveness of the filtration system and disinfectants.</p> <p style="text-align: center;"><b>UNITS OF MEASUREMENTS</b></p> <p><b>ppb:</b> Micrograms Per Liter or Parts Per Billion (or url), or one ounce in 7,350,000 gallons of water.</p> <p><b>ppm:</b> Milligrams Per Liter or Parts Per Million (or mg/l), or one ounce in 7,350 gallons of water.</p> <p><b>NTU:</b> Nephelometric Turbidity Unit, used to measure cloudiness in drinking water.</p> <p><b>%&lt;0.3NTU:</b> Percent samples less than 0.3 NTU</p> <p><b>pCi/L:</b> Picocuries per liter, used to measure radioactivity</p> <p><b>mrem:</b> Millirems per year (a measure of radiation absorbed by the body)</p>
---	---

## **SOURCE WATER ASSESSMENT**

In 2021, all of the water the Town of Cicero distributed came from Lake Michigan. Lake Michigan water is drawn from far offshore structures (known as cribs) along the bottom of the lake and treated at the City of Chicago Jardine Water Purification Plant (north of Navy Pier). This water is pumped by the City of Chicago through large transmission lines to the Town of Cicero pumping stations at 47th Avenue and Roosevelt Road and Laramie Avenue and Roosevelt Road. The water is then pumped at these stations through the Town's water main grid system to the residential, commercial, and public facility end users.

## **SOURCE WATER ASSESSMENT SUMMARY**

The Illinois EPA implemented a Source Water Assessment Program (SWAP) to assist with watershed protection of public drinking water supplies. The SWAP inventories potential sources of contamination and determined the susceptibility of the source water to contamination. The Illinois EPA has completed the Source Water Assessment Program for our supply.

Further information on our community water supply's Source Water Assessment Program is available by calling Chicago's DWM at 312-742-2406 or by going online at <http://dataservices.epa.illinois.gov/swap/factsheet.aspx>.

## **SUSCEPTIBILITY TO CONTAMINATION**

The Illinois EPA considers all surface water sources of community water supply to be susceptible to potential pollution problems. The very nature of surface water allows contaminants to migrate into the intake with no protection only dilution. This is the reason for mandatory treatment for all surface water supplies in Illinois. Chicago's offshore intakes are located at a distance that shoreline impacts are not usually considered a factor on water quality. At certain times of the year, however, the potential for contamination exists due to wet-weather flows and river reversals. In addition, the placement of the crib structures may serve to attract waterfowl, gulls and terns that frequent the Great Lakes area, thereby concentrating fecal deposits at the intake and thus compromising the source water quality. Conversely, the shore intakes are highly susceptible to storm water runoff, marinas, and shoreline point sources due to the influx of groundwater to the lake.

Citizens should be aware that everyday activities in an urban setting might have a negative impact on their source water. Efforts should be made to improve awareness of storm water drains and their direct link to the lake within the identified local source water area. A proven best management practice (BMP) for this purpose has been the identification and stenciling of storm water drains within a watershed. Stenciling along with an educational component is necessary to keep the lake a safe and reliable source of drinking water.

## **SOURCE OF DRINKING WATER CONTAMINATION**

The sources of drinking water (both tap water and bottled water) include rivers, lakes, streams, ponds, reservoirs, springs, and wells. As water travels over the surface of the land or through the ground, it dissolves naturally-occurring minerals and, in some cases, radioactive material, and can pick up substances resulting from the presence of animals or from human activity.

### **Contaminants that may be present in source water include:**

**Microbial Contaminants:** such as viruses and bacteria, which may come from sewage treatment plants, septic systems, agricultural livestock operations, and wildlife.

**Inorganic Contaminants:** such as salts and metals, which can be naturally-occurring or result from urban storm water runoff, industrial or domestic wastewater discharges, oil and gas production, mining, or farming.

**Pesticides and Herbicides:** which may come from a variety of sources such as agriculture, urban storm water runoff, and residential uses.

**Organic Chemical Contaminants:** including synthetic and volatile organic chemicals, which are by-products of industrial process and petroleum production, and can also come from gas stations, urban storm water runoff, and septic systems.

**Radioactive Contaminants:** which can be naturally-occurring or be the result of oil and gas production and mining activities.

## **THE CITY OF CHICAGO TESTING INFORMATION**

### **2021 Voluntary Monitoring**

The City of Chicago has continued monitoring for Cryptosporidium, Giardia and E. coli in its source water as part of its water quality program. No Cryptosporidium or Giardia was detected in source water samples collected in 2021. Treatment processes have been optimized to provide effective barriers for removal of Cryptosporidium oocysts and Giardia cysts in the source water, effectively removing these organisms in the treatment process. By maintaining low turbidity through the removal of particles from the water, the possibility of Cryptosporidium and Giardia organisms getting into the drinking water system is greatly reduced.

In 2021, CDWM has also continued monitoring for hexavalent chromium, also known as chromium-6. USEPA has not yet established a standard for chromium-6, a contaminant of concern which has both natural and industrial sources. Please address any questions or concerns to DWM's Water Quality Division at 312-744-8190. Data reports on the monitoring program for chromium-6 are posted on the City's website which can be accessed at the following address below.

[http://www.cityofchicago.org/city/en/depts/water/supp\\_info/water\\_quality\\_resultsandreports/city\\_of\\_chicago\\_emerigincontaminantstudy.html](http://www.cityofchicago.org/city/en/depts/water/supp_info/water_quality_resultsandreports/city_of_chicago_emerigincontaminantstudy.html)

## 2021 VIOLATION SUMMARY TABLE

Town of Cicero Violation Table			
Violation Type	Violation Begin	Violation End	Violation Explanation
NONE	N/A	N/A	No violations were reported for the Town of Cicero in 2021

**Coliform Monitoring Violation**

**IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER**

**Monitoring Requirements Not Met for Town of Cicero IL0310510**

Our water system violated a drinking water standard over the past year. Even though these were not emergencies, as our customers, you have a right to know what happened and what we did to correct these situations.

*We are required to monitor your drinking water for specific contaminants on a regular basis. Results of regular monitoring are an indicator of whether or not our drinking water meets health standards. During January 2022 we did not complete all monitoring or testing for total coliform and therefore cannot be sure of the quality of our drinking water during that time.*

**What should I do?**

There is nothing you need to do at this time.

The table below lists the contaminant(s) we did not properly test for during the last year, how often we are supposed to sample for total coliform and how many samples we are supposed to take, how many samples we took, when samples should have been taken, and the date on which follow-up samples were (or will be) taken.

<b>Contaminant</b>	<b>Required sampling frequency</b>	<b>Number of samples taken</b>	<b>When all samples should have been taken</b>	<b>When samples were or will be taken</b>
Total Coliform	90 Distribution and 1 Raw Sample	24 Distribution	January 2022	February 2022

**What happened? What is being done?**

The January 2022 total coliform sampling and testing was only partially completed due to the Town’s Certified Water Operator being incapacitated due to a severe Covid infection. The February 2022 total coliform sampling and testing was completed successfully with all test results passing. The Town Water Department will implement a sampling and testing emergency back-up plan in the case that the Town Water Operator is not able to complete required water sampling and testing work.

For more information, please contact Lido Manetti, Water Department Director at 708-656-3600 or 4949 W Cermak Road, Cicero IL 60804.

*Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.*

This notice is being sent to you by Town of Cicero Water Department. Water System ID# IL0310510 Date distributed June 2022

## Updates from the HEALTH DEPARTMENT Actualizaciones del DEPARTAMENTO DE SALUD

### MEDICAL/ SERVICIOS MÉDICOS

Hepatitis A Vaccine & Quantiferon-TB Test is available

With the Abbott ID NOW machine, we can now provide rapid COVID-19 PCR tests.

COVID Vaccines are still available  
Monday-Thursday 9a - 5p  
No Appointment Necessary

Call to schedule your children's school physicals  
708-656-3600, Ext. 147

La Prueba de vacunas contra la Hepatitis A y Quantiferon-TB están disponible

Con la máquina ID NOW de Abbott, ahora podemos proporcionar pruebas rápidas de COVID-19 PCR.

Las vacunas contra el COVID todavía están disponibles  
De lunes a jueves entre 9a - 5p  
No es necesario haber una cita.

Llame para programar los exámenes físicos necesarios para la escuela de sus hijos  
708-656-3600, Ext. 147

### DENTAL/ SERVICIOS DENTALES

Through a generous grant awarded to us by the Illinois State Dental Society, the Dental Department is pleased to announce that we are offering digital x-rays to our patients. We look forward to seeing you soon!

A través de un generoso subsidio de la 'Sociedad Dental de Illinois', la clínica Dental de Cicero se complace en anunciar que ahora ofrece exámenes digitales de Rayos 'X' para nuestros pacientes. ¡Esperamos servirle muy pronto!

### PODIATRY/ PODIATRÍA

Our foot specialist is available for free screenings and services every other Thursday starting on 4/21/22 between 11a-1p.

\*Please call our office for availability or questions.

Nuestro especialista en los pies está disponible para ofrecer exámenes y servicios gratuitos cada dos jueves del mes, a partir del 21 de abril del 2022 entre las 11:00 a. m. y la 1:00 p. m.

\*Por favor llame a nuestra oficina para disponibilidad o cualquier otra pregunta

### ENVIRONMENTAL HEALTH/ SALUD AMBIENTAL

Health Clearance Expires June 30!  
Come in to get your Clearance before expiration!

La Autorización de Salud para empleados se vence 30 de junio!

¡Ven a obtener tu autorización antes que se venza!

The Town of Cicero Health Department/ Departamento de Salud de Cicero  
2250 South 49th Avenue

Presenta/Present

The Cultural Spotlight Project/¡El Proyecto Foco Cultural!

**YOU COULD WIN!  
¡TU PODRÍAS GANAR!**

Artwork would need to be emailed to:  
Las obras de arte deben enviarse por correo electrónico a:  
culturalspotlightproject@gmail.com

We are asking that Cicero students, kindergarten to grade 12, submit artwork, digitally-only due to restrictions, based on a given theme by the end of the month. Please include name, age, school, address and phone number. \*Please note: one winner per month and you may only win once per 12-month period.

Estamos pidiendo que los estudiantes de Cicero, desde jardín de infantes hasta el grado 12, envíen obras de arte, solo en formato digital debido a restricciones, según un tema determinado antes de fin de mes. Incluya nombre, edad, escuela, dirección y número de teléfono. \*Tenga en cuenta: un ganador por mes y solo puede ganar una vez por período de 12 meses.

June's Theme/  
Tema de Junio

Flag Day/ Día de la Bandera

July's Theme/
