## General Vendor Guidelines

All products are subject to restriction by Cicero Artisan Market. Admission is based on the applicant's strengths in the following areas (in order of priority):

- The submission of a complete application, including a **\$25 refundable** application unless you cancel the \$25 is not refundable fee, by **June 5th, 2023 deadline**.
- A signed signature page indicating compliance of rules, a signed hold harmless agreement, and copies of all permits and licenses required for the sale of the applicant's products.
- Payment of 2023 Cicero Artisan fees. Vendors applying for the outdoor season that have not yet paid their outstanding 2023 market fees will not be eligible to participate in the 2024 season until full payment has been received.
- Vendor's history with the Cicero Artisan. This includes adherence to market rules and regulations, market attendance, history of positive consumer/producer relationships, payment of fees, and professional behavior.
- Products are locally-grown, have seasonal integrity, and are of high quality.
- Uniqueness of products offered.
- Ability to engage and educate consumers about products and how they were produced (via knowledgeable employees, informative brochures and handouts, etc.)

Other factors affecting admission of a vendor include:

- Space availability.
- Vendor balance of the market between unprocessed farm products and artisan food products. Cicero Artisan Market prioritizes access to farmers offering locally-grown, healthful products that are sustainably produced vs. food processors with similar products or value-added offerings.  
We define "local" as within 300 miles of the Town of Cicero.
- Individual farms are given preference over partnerships or cooperatives and small-to-moderate family businesses over larger enterprises.
- Importance of Cicero Artisan Market as a marketing outlet for the farm's overall marketing strategy  
(direct sales vs. utilization of distributors).
- Processed products feature seasonal and regional ingredients.
- Existing neighborhood location or production site.
- Use of certified organic or best-practice ingredients.

## Vendor Types

1. **Farmer/Producer**—Farmers/producers must grow/produce 100% of the product they sell. Farmer/producer-owned cooperatives are included in this category.
2. **Processor**—Any vendor who sells a value-added product who is not the primary grower or producer of the raw ingredients used to make that product.
3. **Prepared Foods**—Any vendor, including Farmers/Producers and Processors, that intend to prepare food on site for sale and/or immediate consumption are considered Prepared Foods Vendors.
4. **Makers/Creators/Artisans/craftspeople** — If you make or create your own product, craft, art, etc. this is for you! Vendors in this category should be local/regional to Cicero. If you have any questions regarding if your business may be a good fit, please email us. ([diana@thetownofcicero.com](mailto:diana@thetownofcicero.com))

# GENERAL MARKET RULES, POLICIES AND REQUIREMENTS FOR ALL VENDORS AND PRODUCTS

**Farmer/Producer Only** – Cicero Artisan Market requires that all farmers/producers grow 100% of the products they sell. The sale of any goods not grown or produced by the seller or the reselling of goods is prohibited. No product packed for retail sale or displaying stickers can be sold. All sellers must abide by, and all products must comply with, all applicable federal, state, and local regulations.

**Cooperative Vendors** – If you wish to sell products from a neighboring farm, you must apply as a Cooperative. Cicero Artisan Market defines cooperative vendors in the traditional sense of an agricultural coop where each producer must be actively involved in growing or producing what they are selling.

- **Cooperatives must submit an application “packet” which contains an application completed by EACH member. All Members are subject to the same rules and regulations as independent growers, and each farm is subject to on-site farm inspections.** CAFM can refuse any member who does not meet Cicero Artisan Market standards.
- All co-op members must actively grow or produce the product they sell at market.
- 100% of the products sold by the cooperative must come from the cooperative farms.
- **The Cooperative must supply general signage identifying the farm name and city/state location of EACH member.** See “Requirements for Cooperative Growers”.
- The seller must actively grow or produce at least 25% of the product being sold.
- The cooperative must be a farmer-to-farmer relationship, no auction or produce house product qualifies. The proximity of growers must be within their immediate area.

- Crops grown using Genetically Modified (GM) seed planted after March 1, 2000. Consult Cicero Artisan Market for a current list of these crops, which include varieties of canola, soy, corn, tomato, radicchio, summer squash, potatoes, cotton, and papaya. Note: Since there are no labeling requirements for GM seeds, the only sure way to avoid growing crops using unlabeled GM seeds is to give preference to certified organic agricultural products and processed foods.
- Products purchased at an auction house, wholesaler, or from another farm without prior approval from Cicero Artisan Market are strictly prohibited, and sale of these products is grounds for expulsion from the market.
